SUMMARY

Full-Stack Engineer — 4+ years professional, building for the web since 2016. Frontend Developer at a product agency by title, shipping production web and mobile end-to-end for North American clients across insurance, healthcare (HIPAA), and IoT/BLE. Remote and async. AI-augmented delivery (Claude Code, Cursor): architecture, security decisions, and every merged line reviewed and owned by me.

EXPERIENCE

Frontend Developer — Agilno Jan 2023 - Aug 2026

Product agency; 6 North-American client teams · Croatia, remote

BioCirV Data Portal · public biomass-discovery platform (biocirv.beamcircular.org) Feb 2026 - Jul 2026

- Shipped the public discovery UI end-to-end: search, filters, interactive maps, biomass profiles, and Recharts dashboards over a Django API.
- Owned URL-synced filter state (nuqs) and the TanStack Query data layer, so every search is shareable as a plain link.

`Next.js 16 (App Router) · React 19 · TypeScript · Tailwind 4 · React Hook Form · Zod · React Compiler`

OnCallable · marketplace connecting customers with service professionals (oncallable.com) Jan 2026 - Jul 2026

- Replatformed the static marketing site to a fully CMS-driven Sanity architecture in ~2 weeks using an AI-augmented workflow (Claude Code).
- Editors self-serve everything: sections as CMS blocks, site settings, media, popups, redirects, page templates, A/B tests, with zero developer deploys.
- Built SEO plus AEO (answer-engine optimization) with structured JSON FAQ schemas.

`Next.js 14 · Tailwind CSS · Sanity`

Suello · BLE-connected smart-planter app, Toronto IoT startup Apr 2025 - Nov 2025

- Built the companion mobile app from scratch: BLE (Bluetooth Low Energy) pairing and communication with the planter hardware, plus auth.
- Designed and built the full onboarding flow with custom mobile animations.

`React Native 0.78 · TypeScript`

Vetster · pet-telehealth marketplace, Toronto Jul 2024 - Apr 2025

- Shipped frontend features and PHP backend changes on a 24/7 vet-video platform serving 100k+ app users (Laravel, Vue, PostgreSQL).

Naitur · first digital platform for licensed psilocybin therapy clinics (US, HIPAA) Aug 2023 - Jul 2024

- Shipped the frontend for a first-of-its-kind US-regulated platform that onboarded 100+ facilitators and 15+ clinics in week one.
- Built JWT magic-link auth, multi-party e-signature flows, data tables, export, and analytics on HIPAA-compliant infrastructure.

`React · Node.js · PostgreSQL`

BuddyIns · US long-term-care insurance platform Jan 2023 - Jul 2023

- Built the frontend: auth, PayPal subscription payments, CRUD flows, data tables, and export (Next.js over a Django API).

EARLIER EXPERIENCE

amondi GmbH (Germany, remote) · Frontend React Developer: CMS-driven React apps (car-catcher.de, buildmycareer.de) 2022

Robinson Restaurant (Hvar) · Freelance full-stack: custom WordPress theme from scratch; inquiries up 200% post-launch 2019 - 2021

Reroot (remote, contract) · Web Developer: full redesign of Agrivi, TOP-3 farm-management software globally (WordPress, PHP, multilingual) 2020 - 2021

SKILLS

FRONTEND: Next.js, React, Vue.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

BACKEND: Node.js, PHP, Laravel, REST APIs, PostgreSQL, MySQL

MOBILE: React Native, BLE/Bluetooth integrations

TOOLS: Git, GitHub, CI (Bitbucket Pipelines), Vercel, Sanity CMS, WordPress

AI-AUGMENTED WORKFLOW: Claude Code, Cursor, Codex
